

Visualizing Data with Seaborn

Pratheerth Padman
FREELANCE DATA SCIENTIST

Module Overview

Loading the dataset and getting a sneak peek

Visualizing statistical relationships

Plotting categorical data

Visualizing the distribution of a dataset

Learn how to make your plots look good

Loading and Viewing the Dataset

Visualising Statistical Relationships

Plotting Categorical Data

Visualizing the Distribution of a Dataset

Plot Aesthetics

Course Summary

Importance of data visualization:

- Data analysis and gathering insights
- Communication

Seaborn is a tool for data visualization with many advantages

Asked questions from our dataset and drew:

- Scatter, Hue and Swarm plots
- Box and Violin plots
- Histogram and KDE plots
- Modified plot aesthetics
